

# **JEEVANI AYURVEDICS**

## **Abstract**

These project is to computerize the ayurvedic hospital. These software will be user friendly, simple, fast, and cost effective. It is titled as “JEEVANI AYURVEDICS”. This system is deployed to register and store patient details and doctor details and retrieve these details as and when required, and also to manipulate these details meaningfully.

These JEEVANI AYURVEDICS can be accessed by the admin, Doctor and patient by entering the login credentials. It is accessible either by an administrator or receptionist. Only they can add data into the database. The data can be retrieved easily. The data are well protected for personal use and makes the data processing very fast.

To achieve this aim a database was designed one for the patient and other for the doctors which the admin can access. The complaints which are given by user will be referred by authorities. The Patient modules include checking appointments, prescription. User have to pay doctor's Fee online before getting prescription .
